ATHARVA VADANE

atharvavadane12@gmail.com | +91 9405005294 | Pune, Maharashtra | portfolio | linkedin.com/in/atharva-vadane-976a2b299

Final-year BSc Computer Science student with hands-on experience building production-grade SaaS products and cloud-based ETL pipelines. Founder of a live Transport Management System used daily by a transport company in Maharashtra. Proficient in Python, Java, JavaScript, REST APIs, and Azure/AWS/GCP cloud services. Seeking an entry-level Software Development Engineer role to build scalable, impactful software.

TECHNICAL SKILLS

Languages: Python, Java, C/C++, JavaScript, PHP, HTML/CSS, SQL
Frameworks & Tools: Node.js, Bootstrap, Git/GitHub, REST APIs, Linux, CI/CD basics
Cloud & Data Eng.: Azure (ADF, Databricks, ADLS Gen2), AWS, Google Cloud, PySpark, ETL Pipelines
Databases: SQL Server, PostgreSQL, MySQL, SQLite, RDBMS design
CS Fundamentals: Data Structures & Algorithms, OOP, System Design basics

WORK EXPERIENCE

Data Engineering Intern — Celebal Technologies Pvt. Ltd.
May 2025 – Jul 2025

Azure | ADF | Databricks | ADLS | PySpark | REST APIs

- Designed and implemented a generic, reusable continuous data ingestion framework using Azure Databricks, reducing pipeline setup time for new data sources.
- Engineered parameterized and conditional Azure Data Factory (ADF) pipelines that automated multi-source ingestion across 5 countries (India, US, UK, China, Russia), running bi-daily without manual intervention.
- Integrated REST APIs, ADF, Databricks, and ADLS Gen2 into an end-to-end ETL pipeline, improving data reliability and orchestration for enterprise-grade workflows.
- Configured dynamic triggers and SQL record-based conditional flows, enabling intelligent, event-driven data processing at scale.

Web Developer — Creative Film Platform
Jul 2024 – July 2025

HTML | CSS | JavaScript | Bootstrap

- Designed and deployed a fully responsive, mobile-first community website serving a creative film community across devices.
- Collaborated directly with stakeholders to translate cross-departmental requirements into a clean, maintainable frontend codebase.

PROJECTS

Transport Management System (TMS) — Founder & Lead Developer
2024 – Present *tms-steelseven.vercel.app* |

Real Word Problem Solved · Full-Stack Desktop Application · Full-Stack Web

- Built and launched an end-to-end SaaS TMS platform from scratch — currently live in Early Access — targeting India's 5M+ small and mid-size fleet operators who rely on paper and WhatsApp for freight management.
- Engineered core features including Smart Dispatch, Live Load Tracking, GST Invoice Generation, Carrier Management, and Cloud Backup using a multi-cloud backend (Azure, AWS, GCP).
- Deployed a billing system and desktop application at Pandurang Transport Pvt. Ltd., Maharashtra — actively used in daily production operations.

- Designed the full-stack architecture independently, handling REST API design, database schema, cloud infrastructure, and frontend UI.

Generic Continuous Data Ingestion Pipeline — Celebal Technologies May – Jul 2025

Azure ADF · Databricks · ADLS Gen2 · PySpark · REST APIs

- Automated bi-daily data ingestion pipelines for global datasets across 5 regions using Azure-native services.
- Built reusable, parameterized pipeline templates that can be configured for new sources with minimal changes.

Online Student Attendance Management System — RBNB College 2026

HTML · CSS · JavaScript · PHP · MySQL

- Developed a full-stack web portal for managing student attendance with role-based access control (admin, faculty, student) and automated attendance reporting.

EDUCATION

BSc Computer Science (Minor: Statistics) — RB Narayanrao Borawake College, Shrirampur

Expected May 2026 *Maharashtra, India | CGPA: 7.5 / 10 | Maintained 60%+ throughout*

CERTIFICATIONS & TRAINING

- NPTEL – Programming in Java (Elite Grade, Top Percentile) — IIT Kharagpur
- Google Cloud Digital Leader Training Program — Coursera Multi-course Specialization
- Google Cloud – Generative AI Foundations
- Google Cloud Arcade Facilitator Program – Hands-on Cloud Services (Apr–Jun 2022)
- AWS Certificate of Generative AI for Executives
- GeeksforGeeks Full Stack Developer Bootcamp
- SkillsUP Final Year Course — IIT Roorkee
- TCS Career Edge – Young Professional (Business Communication, Leadership)

ACHIEVEMENTS

- 4th Rank – Poster Presentation Competition, College Level (Topic: National Budget 2025)
- NPTEL Java Elite Certificate – scored in top percentile nationally
